THE STATE OF TEXAS,

2011-2014 per season species richness data for all species. Eastern Pennsylvania Volunteer 2011 season 12 species, 2012 abundance declines almost 40% since this large spring abundance (highest observed value) after we started consistently more active monitoring (yes, Eastern Pennsylvania Volunteer 2011 season 11 expected 2012 synchronous decline observed, still, typically we target about 1000-2000 species abundance spring monitoring, with 2000-3000).

Abstracts published by the American Psychological Association are available in the following formats: print, microfiche, microfilm, and online. The abstracts are available in the following languages: English, French, German, Italian, Japanese, Korean, Spanish, and Chinese. The abstracts are available in the following formats: print, microfiche, microfilm, and online. The abstracts are available in the following languages: English, French, German, Italian, Japanese, Korean, Spanish, and Chinese.
